# About This Manual

The *Master Index* provides an index for the most commonly used manuals in the Compaq Internet Express documentation set. Manuals with index entries in the *Master Index* are listed in Table 1.

## Audience

This manual is for anyone who needs to access information about Internet Express for Tru64 UNIX. It can help you find a specific topic in the documentation set by pointing you to the location in the manual where the topic is discussed.

## Conventions

In the PostScript and Portable Document Format (PDF) versions of the *Master Index*, each master index page reference is preceded by an abbreviated manual title. For example, the following entry points to page 3-2 in the *Administration Guide*:

**system**  
rebooting *AdminGuide* 3-2

Table 1 maps the abbreviated title for each manual to its complete title.

In the online version of the *Master Index*, the abbreviated manual title appears as a hot link. Clicking on this link takes you to the actual location of the information in the manual. Most entries also provide section numbers, to help you further refine your search.

**Table 1: Manual Title Abbreviations**

<b>Abbreviation</b>	<b>Manual Title</b>
ReadMe	<i>Read This First</i>
InstallGuide	<i>Installation Guide</i>
AdminGuide	<i>Administration Guide</i>
InternetMonitor	<i>Internet Monitor Administrator's Guide</i> <sup>a</sup>
WebServerDoc	<i>Compaq Secure Web Server Administration Guide</i> <sup>b</sup>

<sup>a</sup>This manual is added to the documentation bookshelf when Internet Monitor software is installed.

<sup>b</sup>This manual is added to the documentation bookshelf when the Compaq Secure Web Server software is installed.
